ANNUAL MEETING OF RATEPAYERS

Once again, the annual meeting of ratepayers was not attended by ratepayers beyond those who hold administrative positions on the council or school board.

The annual meeting was held at the school house on Friday evening last, when the financial statements and auditor's reports of the Town of Blairmore and Blairmore School District No. 628 were read by Secretary A. J. Kelly.

The reports of both the town and school district are most encouraging and speak well for those in charge of administering our affairs. Particularly so is the condition of the town financially, and we venture to challenge any town in western Canada of the same age and population to produce a better record.

The general surplus of the town today stands at around \$67,000, the electric department alone having a surplus of \$4,304.26 for the past year.

During the year considerable public improvements were effected, including the building of concrete sidewalks and bridges, the purchase of equipment for street grading (including a tractor), the grading and graveling of Victoria and other streets, etc., most of which was paid for out of current revenue.

Reports of the school district are also very encouraging, showing a saving in operation for the year 1928 of some \$4500 to \$5000 over the previous year. According to figures submitted, the net cost of operation per pupil for the year 1928 was \$57.35, as compared with \$72.01 the previous year and upwards of \$80.00 four years ago. During the past year, in the neighborhood of \$400 was spent on playground equipment, being part of the plan inaugurated about two years ago, by which it is hoped to spend in this way about \$300 per year until such time as an adequate amount of equipment is provided.

Mr. Arthur J. Kelly has been appointed returning officer for the forthcoming municipal and school elections. Nominations will take place at his office on Monday next from 11 a.m. to 12 noon. Elections will be held on the Monday following. We understand that the posts of three trustees, the mayor and three councillors are to be filled. W. Paterson has already resigned from the council, while Mayor Farmer and Councillors McVey and Hamilton complete their terms. W. H. Chappell, C. J. Tompkins and J. Angus McDonald are the retiring board members.

THROUGH ROUTE, MEDICINE HAT TO HOPE, B.C. PROJECTED

NELSON, B.C. Jan. 31.—Notification to the public of its intention to apply at the coming session of the Federal Parliament for charter rights to build a railroad link from Kootenay Landing to Proctor, B.C., is announced by the C.P.R. in a statutory notice.

The notice issued from Montreal under date of January 29, is signed by E. Alexander, secretary.

The application is for right to build about 30 miles of road from Kootenay Landing to a point near the landing to Proctor or a point near Proctor on the Nelson-Proctor branch line. The line would run along the west side of Kootenay Lake. Issue of securities under the power asked would total about \$1,500,000. Surveys have already been completed.

It is generally understood that the completing of this link will give the Crow's Nest Pass route an all-train line from Medicine Hat to Hope, B.C.

AFTER THE SHOW on Saturday night, remember the MOOSE DANCE.

Mr. R. G. Foot returned Sunday morning last from a business visit to Calgary.

OFFICERS VIMY CHAPTER, O.E.S., INSTALLED

At a meeting held in the local Lodge Hall on Monday night of last week, the officers of Vimy Chapter No. 52, Order of Eastern Star, were duly installed by Mrs. J. Martin, grand warder of the Grand Chapter of Alberta, assisted by Mrs. M. Rees as grand marshal, Mrs. J. Pinkney as grand chaplain, and Mr. M. Cook as grand secretary. The following are the new officers:

Worthy matron, Mrs. A. L. Chappell.

Worthy Patron, Mr. Walter Lord, senior.

Associate Matron, Mrs. J. L. Ferguson.

Associate Patron, Mr. R. W. H. Pinney.

Secretary, Mrs. E. Moore.

Treasurer, Mrs. D. Christophers.

Conductress, Mrs. A. Lord.

Associate Conductress, Mrs. M. Barnes.

Chaplain, Mrs. B. Gresham.

Marshall, Mrs. M. Morgan.

Organist, Mrs. M. McPherson.

Adah, Mrs. A. J. Donkin.

Ruth, Mrs. M. Granger.

Eather, Mrs. K. Turner.

Martha, Mrs. K. Murray.

Electa, Mrs. A. Drake.

Warder, Mrs. J. Gray.

Sentinel, Mr. W. H. Chappell.

Mrs. M. Emmerson, of Bellevue, grand chaplain of the Grand Chapter of Alberta, was present at the meeting.

LOCAL STUDEBAKER BONSPIEL POSTPONED

The Studebaker bonspiel, which was to have been played here on Wednesday and Thursday of this week, had to be postponed on account of the severe weather, and we understand will take place on February 13th and 14th.

L. L. MORGAN CHOSEN PRESIDENT CURLING ASS'N.

Following the district bonspiel held at Fernie last week, the election of officers for the year 1929 took place, with the following results: President, L. L. Morgan, of Blairmore; vice-president, R. O. Allison, of Pincher Creek; secretary, Sherwood Herchmer, of Fernie.

The invitation of President Morgan to hold the next bonspiel of the Crow's Nest Pass Curling Association in Blairmore was accepted.

The association's territory extends from Moyn B.C. to Pincher Creek, Alberta.

INSTITUTE OF MANUAL TRAINING AND HOME ART

Friday, February 1st, at 8 o'clock, a meeting of those interested in a class in Jesso Artcraft. The work covered will be explained and questions answered. If anyone is interested to form the class, a time will be set suitable to all.

INSTITUTE PUBLIC LIBRARY

We have only promises to report this week. No books were received. We appeal to the citizens of Blairmore to get behind this scheme and establish a library that will be an ever increasing source of happiness and pleasure to all the citizens of the town.

Next week we shall have a special announcement. Watch for it and in the meantime get busy and send us a donation of books or of money with which to buy books.

Mount Allison University will raise a fund of one million dollars for additional buildings and equipment necessary to the carrying on of that institution. These will include: science building, women's residence and new school and laboratory.

A business man writes:

"My Wife Handles the Money"

"SHE can do it better than I. Each pay day she always deposits our Savings first. We never buy anything unless we have the cash to pay for it, and each year our Savings are growing."

Yes, too, can pay your bills and save. Our Budget Book will help you plan your income. Ask for a copy.

**WORLD HAPPENINGS
BRIEFLY TOLD**

The Turkish assembly ratified the pact for rearmament at war and the government instructed its ambassador at Washington to sign the pact.

The Rev. Dr. S. Parkes Cadman, pastor of Central Congregational church, Brooklyn, says he has been invited to deliver the sermon at the opening of the League of Nations conference at Geneva on Aug. 25.

Premier Stanley Baldwin announced in the House of Commons examination will be held into the 60-year old project for a tunnel under that a comprehensive non-party report.

Several persons were killed and a thousand buildings destroyed in the populous Greek district of Tavala in Constantinople by a terrific fire whipped by a fierce wind which laid waste an extensive area.

Japan has notified the League of Nations that manufacture and distribution of narcotics in Korea had been taken out of the hands of private companies and made a government monopoly.

Every effort will be made to secure for Canada the winter sports of the Olympic games in 1932. It was decided at a meeting in Toronto of the executive committee of the Canadian Olympic committee.

The Victory scholarship of the Royal Institute of British Architects has been won by a woman for the first time. Miss. Margaret Kennington, England, 22 years old defeated 20 other competitors, most of whom were men.

McGill university library has come into possession of two extremely valuable Greek manuscripts. The larger of the two dates back to the 13th or early 14th century while the other volume is a lectionary dating from the 13th century.

Col. Robert Johnson is home with his mother and sister in Chicago after having wandered all over the country, a victim of "Black and blue" and loss of memory after the World war. Johnson's kin had given him up for dead.

Edmonton Telephone System
As showing the growth of business in Edmonton, "The Journal" points out that whereas 24 years ago some 600 citizens of the then town of Edmonton voted \$27,000 for the purchase of the Edmonton district telephone system (for the use of 230 subscribers), the system has now grown to represent a capital investment of \$2,500,000, with subscribers numbering 15,000.

Vancouver Grain Exports
Grain exports from Vancouver for the calendar (1928) year will exceed 90,000,000 bushels, according to Merchants' Exchange figures.
The average depth of the ocean below sea level is 12,600 feet.

**Going Upstairs
Had to Sit Down
Breath So Short**

Mrs. H. Brouseau, Magog, Que., writes: "For many years I suffered with shortness of breath; then four years ago I had palpitation of the heart, and was so bad I had to sit down two or three times when going upstairs. I read about

**MILBURN'S
HEART
& NERVE PILLS**

so I got a box, and in no time I felt better, so I took three boxes more and I have never had shortness of breath since.

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Time For Expansion In Sheep Industry

Can Be Greatly Developed In Canada
Says Expert

In a review of the sheep industry, A. A. Macmillan, chief of the sheep division of the Dominion livestock branch, says the time seems opportune to gradually expand the industry in keeping with consumptive demand, provided the marketing of hanks can be organized on the basis of regulated marketing extending over a longer period.

The sheep industry can be developed and the possibilities are unlimited from the range standpoint in the prairies, the foothills and the interior of British Columbia, while in eastern Canada many thousands of farms are not carrying one per cent. of the number they should carry, the report states.

CHILDHOOD AILMENTS

Can Be Quickly Banished With
Baby's Own Tablets.

The ailments of childhood are many but nine-tenths of them are due to one cause and one cause only—a disordered condition of the stomach and bowels. To quickly banish any of the minor ailments of babyhood and childhood the bowels must be made to work regular and the stomach must be sweetened.

No other medicine for little ones has had such success as Baby's Own Tablets. They banish constipation and indigestion; break up colds and simple fevers; correct diarrhoea and colic and promote healthful sleep by regulating the functions of the stomach and bowels. Concerning them Mrs. L. M. Brown, Walton, N. S., writes: "I cannot speak too highly of Baby's Own Tablets as I have found them excellent for childhood ailments."

Baby's Own Tablets are sold by medicine dealers, or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**"Flu" Is Here
In Dead Earnest**

SICKNESS IN NEARLY EVERY HOME IN WESTERN CANADA

Watch your little child—beware of everyone who is coughing or sneezing—avoid crowded places, above all, stop your grippy cold at the beginning.

Doctors and nurses who have had long experience in handling grippy cases advocate Catarrhosone Vapor as an effective means of protection.

It is very simple to use Catarrhosone, and the whole family can inhale its germ-killing protection at the cost of a few cents.

Put a teaspoonful of liquid Catarrhosone in a pint of water. Place this on a stove or lamp and bring the water to a boil. The vapor which rises contains the most powerful disinfectant. As you breathe this healing vapor, you kill the germs that cause colds, catarrhs, flu and grippes.

Splendid for children—equally good for the parents. Far better to protect the whole family in this way than to have a household of sickness. All druggists sell Catarrhosone in 50c. bottles.

Revenue From Poultry

In 1913, revenue from the poultry industry in Alberta amounted to \$2,250,000. In 1927, 14 years later, revenue from this source was \$10,063,000, according to the poultry commissioner for Alberta.

In all infantile complaints that are the result of the depredations of the worms in the stomach and intestines, Miller's Worm Powder will be found an effective remedy. They attack the cause of these troubles, and by expelling the worms from the organs insure an orderly working of the system, without which the child cannot maintain its strength or thrive. These powders mean health and improvement.

A New York sculptress excels in carving horses out of cheese. Her horses can be melted into wieners, rabbits, later emerging as nightmarcs.

Scientists say the earth is cooling at the rate of two degrees every sixteen million years.

Inventor Of Many Electrical Devices

J. W. LEE, Who Died Recently,
Was Wave Scientist

The death occurred in Wilkinsburg, Pa., of Joseph Willard Legg, inventor and one of the foremost workers in the field of oscillography, or wave phenomena. He was 41 years old. A member of the metropolitan engineering staff of the Westinghouse Electric and Manufacturing company, Mr. Legg developed many electrical devices, his greatest invention being the "osco," a small, portable oscillograph extensively used in many branches of study. The instrument is now being used in St. Louis in experiment to help deaf persons to speak by making visual records of their voice waves.

One has been taken by Commander Richard E. Byrd on his Antarctic expedition, where it will be used in the study of radio "dead spots" and the reflection of radio waves. Its other uses include measurement of nerve responses, measuring intelligence for the study of musical overtures, for locating oil wells, measuring ship and train vibrations, and one of its most important phases, its use as an electric cardiograph to make a complete permanent record of the action of the heart.

SUNDAY SCHOOL LESSON
FEBRUARY 3
THE HOLY SCRIPTURES
Golden Text: Open thou mine eyes, that I may behold wondrous things out of thy law. Psalm 119:18.
Lesson: Deuteronomy 6:4-9; Joshua 1:8, 9; 2 Samuel 22:8-9; Nehemiah 8:1-8; Psalm 107:1-4; Luke 24:25-32; Acts 17:10-12; 2 Timothy 3:14-17.
Devotional Reading: Psalm 119:105-112.

Explanations and Comments
The Value of the Scriptures. Psalm 119:1-171.—The law of Jehovah, the testimony of Jehovah, the precepts of Jehovah, the commandments of Jehovah, the ordinances of Jehovah—all of these expressions are terms for the Scriptures of the Old Testament, especially for the Sacred Law which they contain. "The Christian Church has legitimately extended the word which is used in the Bible to the Scriptures which form the Bible." This, the Psalmist declares, is perfect, replete, enlightening the eyes, "imparting refreshment and joy to the soul, giving new life and hope; dying eyes are gladdened, a sick man's eyes are heavy and dull, health and brightness are restored, and righteous altogether."

The fear of Jehovah is clean, enduring for ever. When among the five terms, each clearly significant of the Scriptures, the Psalmist introduces the abstract expression "the fear of the Lord," he must mean the awe, the obedience, the discipline and inspiration of the Book whose praise is the burden of his song. (George Adam Smith).

More to be desired are they than gold, yea than much fine gold. "The word like a deep, deep mine, and jewels rich and rare are hidden in its mighty depths. For every searcher there."

Then with heart aglow, the Psalmist cries, "More to be desired are they than honey, and the drop of the honeycomb"—the purest of the honey. "Moreover by them is thy servant warned; in keeping them there is great reward."

"If only we would obey the leading of Christ in the discipline of the sun, our lives would be full of light and health and liberty. We should be restored to perfect health; our simplicity would be made wise, our hearts would be gladdened; our eyes would be enlightened; our poverty enriched, and our dispositions sweetened." (F. B. Meyer.)

Form Strange Society

Wives Of Gamblers In Budapest Have Organized Union

A strange society has just been formed in Budapest. The wives of gamblers have banded themselves into an anonymous union, with the object of preventing the tragedies resulting from losses at cards.

The members of the union propose to visit members of parliament and enlighten them on the tragic family conditions brought about by the gambling clubs, and eventually to make an appeal to the minister of the interior.

The organizer of this union is the destitute widow of a gambler, who drowned himself in the Danube after committing forgery to pay his gambling debts.

During her husband's lifetime she formed the habit of waiting for him in the vestibule of the card club in the small hours of the morning, and there became intimate with numbers of women who waited, trembling, at the thought of the losses which their husbands would disclose to them when they came from the card rooms.

Speeding around corners is a straight road to the hospital.

MAMMOTH GRAIN ELEVATOR

The King government has undertaken to erect a huge grain elevator, two and one-half miles from Prescott. This structure will cost \$4,000,000, the first contract to be awarded this month. The elevator will be able to unload up-lake vessels at the rate of 1,000,000 bushels daily and

Royal Bank Annual Meeting

The sixtieth annual meeting of shareholders of The Royal Bank of Canada marked the close of the most successful year in the history of the bank. The report submitted showed that both the assets and the profits of the bank constituted a record for Canadian banking.

Dealing with the question of trade relationship between Canada and the United States, Sir Herbert Holt, the President, said:

"No country imports more goods from a single market than Canada from that country. The value of these imports during the twelve months ending September 30, 1928, aggregated 700 million dollars, a total more than 300 million dollars in excess of Canadian sales to that market during the same period. Such an unbalanced trade relationship is injurious to the national welfare of this country."

"In spite of the fact that the present trade relationship between the two countries is disproportionately favorable to the United States, there is active discussion of further tariff reductions that seem likely to shut out the few competitive items which Canadians now sell there. It would seem that those who propose such tariff changes fail to realize that checks upon Canadian prosperity automatically check the volume of goods which can be brought from the United States, and that on the other hand continued improvement in Canadian conditions brings corresponding increases in the volume of goods

which they can sell us. From this viewpoint it might be considered economic statesmanship for the United States to discover means to increase their purchases from Canada, rather than to erect tariff barriers which will constitute new trade barriers."

General Manager's Address

Discussing the policy of developing the latest resources of our country, Mr. Neil said in part:

"During the past two or three years many existing industries have been reorganized, to meet the requirements of expanding business. Much has been effected to ensure production on the most efficient basis, and many new industries have been started. Through a number of different investment bankers who are our customers, we have had the opportunity to assist in such financing, with the result that numerous new and valuable connections have been established for the bank."

"It is able to report that in every such case credits granted have been liquidated to the satisfaction of the bank. The number of new issues that have been made, are carrying on, and it is pointed out that in this period of prosperity reserves should be built up against less prosperous times. The public has the right to expect sound leadership in government and industry and with such leadership there can be no doubt concerning the wonderful prospects that the future holds in store for Canada."

Training For The Blind

Need For More Varied Occupation
Says Major Timmins

Fifty per cent. of the blindness in the Dominion could be prevented if proper measures were taken by those liable to suffer injury to the eyes, Major A. N. Timmins, general manager of the Canadian National Institute of the Blind at a meeting of provincial field officials at the offices in Regina.

Major Timmins is touring the country to observe the work of the institute and in his short talk pointed out the need of an intelligent and intensive training for the blind. He declared that at training the blind could work at almost any occupation besides the standard bookwork, red work and broom making. In Saskatchewan alone, he said, some 150 blind persons would thus be enabled to earn their own living and not be a burden on society.

He said that over \$100,000 worth of goods made by the blind had been sold in this province in 1928 by the sales department, through women's organizations. Of this amount, the proceeds amounted to \$25,000. The total sales for the Dominion and Newfoundland totalled one million dollars.

Will Be Working Soon
Rural Credits Boards To Be Organized In Provinces

Now that the federal rural credits board has been completed, the task of organizing the provincial boards and of putting the Federal Rural Credits Act into operation will be proceeded with vigorously and it is regarded here as certain that the new loaning organization will be functioning before the spring break-up.

The most important job now is to get the provincial boards appointed. Six provinces are under the act, and, therefore, six separate boards are required. The system to be followed is that the provincial governments will submit a list of names of suitable men to the federal board and from this list the members will be chosen. It is understood that Hon. J. A. Robb, minister of finance, will write to the provinces urging early action. When all the boards are in existence, a proclamation will be issued bringing the new system into operation, and Mr. Robb will then give the federal board \$5,000, 600 free of interest to be used in loans to farmers. This will be sort of revolving fund since the mortgages taken in exchange for this money will be discounted and the money so obtained used to continue the business of loaning.

Are You Ready

When your children cry for it

Baby has a way of crying at times. All you can do is to soothe them. Then you can be prepared. Then you can do what any experienced nurse would do. Most mothers would tell you to do—give a few drops of plain Castoria. No sooner does Baby feel soothed, relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug. Castoria is vegetable. So it's safe to use as often as an infant has a little pain you cannot pat away. And it's always ready for the next emergency of colic or constipation or diarrhea, effective, too, for older children. Twenty-five million bottles sold last year.

**Fletcher's

Germany Buys Douglas Fir

Requirements For Special
Purposes

Douglas fir because of its superior quality in clearness and strength, is the leading Canadian product to find a sale in the German market. It is increasingly substituting for pitch pine, because of the latter's gradual increase in price, while at the same time it has to compete against supplies from Washington and Oregon.

It is sold regularly to all requirements for special purposes, being used for interior finishing, decking and deck boards, while plywood and logs are also imported when price is competitive.

Help For Asthma. Neglect gives

asthma a great advantage. The trouble, once it has secured a foothold, fastens its grip on the master of the house tenaciously. Dr. J. D. Kellogg's Asthma Remedy is daily becoming cases of asthma of long standing. Years of suffering, however, might have been prevented had the remedy been used when the trouble was in its first stages. Do not neglect asthma, but use this preparation at once.

Roofs Made Beautiful

A roof was once something to keep out the rain. Now with the growth of air travel it is becoming somewhat of a nuisance upon which the beautiful, and architects are paying attention to this new development in their art. The proof of the roof is going to be in the viewing.

Some motorists drive as if they

were anxious to have their accident quickly and have it over with.

When your children cry for it

Baby has a way of crying at times. All you can do is to soothe them. Then you can be prepared. Then you can do what any experienced nurse would do. Most mothers would tell you to do—give a few drops of plain Castoria. No sooner does Baby feel soothed, relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug. Castoria is vegetable. So it's safe to use as often as an infant has a little pain you cannot pat away. And it's always ready for the next emergency of colic or constipation or diarrhea, effective, too, for older children. Twenty-five million bottles sold last year.

CHAPTER XIII.—Continued.

Connie raised her head. "Oh, no, I don't think so, Andy; that must slip on," she objected.

Andy made a pretence of studying the article in question.

"Yes, yes, sure! That's right, that's right!" he conceded quickly.

Andy's pipe was now sending out billows of aerid smoke. Connie moved beyond the smoke screen. Much to Andy's relief, she sat for a moment, silently studying the advertisement. When she raised her head there was a look of wistful yearning in her blue eyes.

"Oh, Andy," she said dreamily, "it must be lovely to feel those soft silky things next your skin."

"I'm—I'm sorry, Connie," stammered Andy, "but I've a roast in the oven—"

"Just a minute Andy," she pleaded, "there is something else I want to ask you."

"God 'elp me, what will it be now?" thought Andy, as he braced himself for the next question.

"Andy, what is a cannibal?"

A look of profound relief crossed the little Australian's face.

"A cannibal," he explained with an air of wisdom, "is a fish. It's a—"

He was interrupted by Connie's peal of laughter. "Oh, Andy," she cried, "you're a funny man!"

She turned and ran laughing down the hill.

"Strike me lucky!" exclaimed Andy as he mopped his brow. "It's enough to make a blighter's heart bleed. The poor motherless kid comin' to a bloke like me to ask such questions!"

He watched Connie as she slowly ascended the trail, still studying the magazine pages.

"But 'ow the 'ell can I 'elp 'er?" He pondered deeply for a moment, but, seemingly unable to answer the question, shook his head sadly and turned to his duties.

Fortunately for Janet's peace of mind, none of her friends had recognized in the photograph of the new champion of Canada the handsome young man who had met at her home.

They were puzzled by her decision to spend a holiday in the wilds until she casually mentioned that Mr. McLean was arranging for their entertainment, and she accepted with a smile, the shy teasing that followed.

The party arrived by special train a day earlier than originally planned, and as Janet stepped to the platform Donald was for a moment disconcerted by the warmth of her greeting and the softness in her eyes as they rested on him.

That afternoon Connie came riding down the hill holding in her hand an enormous bouquet of Alpine flowers.

She leaped from her horse and ran blithely around the corner of the big building. Andy, dressed in white coat and hat, came smilingly forward to meet her.

"Andy, here are some rare flowers. Dad sent 'em—"

She ceased speaking abruptly as Donald, leading Janet and her friends from a tour of the kitchen, came through the door.

Donald's face lighted with a gleam as he saw Connie.

"Miss Rennie, I want you to meet Miss Wainwright.

Connie's face burned with embarrassment as all eyes turned toward her, and the mass of wild flowers held crumpled to her breast quivered as though shaken by a breeze.

She glanced about her quickly, strongly tempted to flee the spot.

For a moment the society belle and the girl of the mountains eyed each other silently. Janet stared at Connie as if she were some strange creature unclassified by science.

Connie for the first time was gazing on a stylishly-dressed member of her own sex. Janet's dress of white silk shimmered in the sunlight, and her broad-brimmed white hat, with lining of pale rose, gave to her beautiful face a ruddy glow.

Connie's eyes roved in admiring awe from the neat high-heeled shoes to the silken hose and skirt, and then to the flowered hat set jauntily on thick shining coils of dark hair.

There was a certain dewy freshness, a native frankness, about the girl of the woods that made Janet appear artificial. Their eyes met, and Connie's lips parted in a timid smile, revealing two rows of perfect milk-white teeth and forming two tiny dimples in her brown cheeks.

Her lonely heart longed for the friendship of this wonderful girl, but the smile quickly faded when she saw that Janet's eyes remained cold and appraising.

Janet scrutinized Connie's faded blue overalls and coarse cotton shirt, which, even though loose and ill-fitting, could not conceal the graceful lines of the childish figure. Confused by the cold reception, her eyes wide and misty with a hint of pain, Connie turned quickly away.

Moving with the easy grace and freedom that was one of her gifts, Connie walked to the side of her carcase, and with characteristic bird-like motion sprang to his back. Her moccasined feet struck his sides, and with ears flattened Paganus leaped to his feet.

Her lonely heart longed for the friendship of this wonderful girl, but the smile quickly faded when she saw that Janet's eyes remained cold and appraising.

That night, lights gleamed from every window of the big house, which had undergone a sudden transformation. The walls were one mass of wild flowers, and on the beams overhead small cedars and 'scapines stood upright in rows, already pungent odour to the air, strongly burdened with the sweet smell of wild flowers. The music of the wind flowed out of the open door to vibrate softly through the dripping trees.

Connie learned of the dance, and after dark she slipped quietly down the valley. She crouched by the open window, heedless of the rain dripping from the eaves, her eyes glued upon the enchanting scene within. She saw Donald and Janet gliding across the floor, and she marvelled at the grace of their movements. The hum of talk, the constant ripple of feminine laughter, the rustle of silken skirts, were all foreign to Connie. She felt a touch of intense and utter loneliness, like a stranger in a strange land.

Janet seemed to have thrown aside her cloak of reserve; she brimmed over with an unwonted gaiety. But at times her big brown eyes had a troubled look as they rested on Donald.

Gillie's "redshirts" filed in to give an exhibition of old-fashioned dancing. Half the men wore handkerchiefs tied about their arms to indicate that they were impersonating ladies. Blackie played the violin, while "Fighting" Jack's roaring voice did the "callin' off."

Admiral E. R. Evans and Alfred C.
Bossmann, architect.

Great Britain Saving Moving Picture Films

Plans to Keep Record Of Important Events in National Life

Plans for the preservation of posterity of motion picture films of successive, but authentic, events of British history are being laid by the British Empire Film Institute.

This particular work is under the trusteeship of Lord Asquith, Rear Admiral E. R. Evans and Alfred C. Bossmann, architect.

The first exhibit obtained by the Institute is the original film of Captain Scott's ill-fated expedition to the South Pole, of which Evans assumed command after Scott's death.

Other films which the institute hopes to acquire will show representative pictures of British life, such as a mixture of dramatic ceremonies, the Lord Mayor's parade, pictures of the motor traffic in congested streets and activities of the royal family.

But with a lowered resistance of the body cells, through local or general disturbances, the defence is weakened, permitting in the one case, a poisoning of the body tissues by the waste materials, and, in the other, the securing of a foothold by such bacteria as may have gained access to the tissues.

Among those factors tending to reduce this lowered vitality of the body cells or, in other words, "loss of tissue tone," may be cited, systemic diseases; influences exerted through nerve channels, and a poorly nourished blood supply.

But, possibly, in the mouth, the factors are more frequently local in nature, and generally result from oral neglect. These include irritations and injuries from wedging foods, deposits of tartar and food debris, and the purely negative factor, the lack of proper masticatory exercise.

Corrective measures such as the use of harder foods requiring more vigorous chewing, and more careful attention to mouth toilet, "will in most cases, actively restore the tissues to a healthy tone."

Trust him implicitly, submit to him cheerfully, and you will find that all shall be well; that more grace will be given you; that the heavier the trial the larger will be the blessed measure of the strength. The Shepherd is leading you in the right way to His own blessed fold. Leave it all to Him.

Mineral's Liniment prevents flu.

Chasmod Music.

"Can you distinguish classical music?" asked Mrs. Newrich. "I think so," replied her husband. "When a piece threatens every minute to be a tune and always disappoints you, it's classical."

A good rule for autists is to drive as if their own family were in the other car.

Coast Radio Stations.

Coast station is the term used to designate a radio station established on shore to communicate with ships at sea. In Canada there are 46 such stations.

The primary object of these stations is to provide radio facilities whereby any ship within 500 miles of the Canadian coast can establish instant touch with shore.

Constant watch is kept for the full 24 hours of every day in the 365 days of each year.

About the only thing a man gets free in this world is criticism.

"All right!" he snapped. "Cancel the order!"

"Two wonderful a night to sleep," said Janet softly.

"Shall we walk to the lake?" asked Donald.

She nodded assent.

"They stood near the edge of the lake in the light of the moon and looked across at the towering snowfields etched against the star-spangled sky. There were lights still shining from the big room they had just vacated, and the night watchman's lantern bobbed jerkily as he made his rounds. Across the lake the light from the trapper's cabin shone on the calm surface of the water. The faint, weird call of a loon wafted to their ears was echoed and re-echoed in soft cadences from the surrounding hills. A faint breath of wind came out of the rain-washed forest, laden with the sweet perfume of earth and flowers, and caressed their faces like loving fingers. Donald took a deep breath that seemed more like a sigh.

(To Be Continued.)

Just An Accident.

A man entered the out-patient's department of a hospital. His head was enveloped in a mass of bandages.

"Are you married?" asked the doctor.

"No," replied the patient. "I have been run over."

Should Eat More Apples.

It is estimated that each Canadian consumes on the average 132 apples each year. This might easily be doubled without any damage to either the grower or the consumer. The apple is really one of the finest of fruits.

TISSUE TONE

Just what does the term imply? Well, doubtless at some time or other, you have had your doctor advise "that the system needed a general tuning up." This should afford a clue as to the meaning.

Under conditions of normal life, as the tissues grow and perform their functions, worn-out cells die. As bone grows, it is absorbed little by little to make room for the remodelling and growth of the larger structure. Also, bacteria, ever present in the oral cavity, gains access beneath the protective covering of the mouth tissues.

However, nature has made provision for the disposal of these worn-out fragments and foreign intr

DID YOU EVER STOP TO THINK?

(By Edson R. Waite, Shawnee Oklahoma)

Edwin S. Friendly, business manager of the New York Sun, says:

"That Archimedes, the great mathematician, once said: 'Give me a lever and a place to stand and I will move the earth.'"

The great lever in modern industrial and commercial America today is advertising. Advertising is the power that stimulates and moves production to high levels and sales to high peaks.

And advertising in newspapers, by far the largest in total volume, has conclusively demonstrated itself as the quickest sales producer with the greatest selling power of any of the modern forms of advertising.

Consistent and intelligent advertising plays one of the most important parts in the enormous production and sale of commodities in our country today. Advertising, through its ability to inform a great number of people, creates a desire and hence a demand for products.

H. G. Wells has described advertising as one of the greatest influential and educational forces in the world today. Mr. Wells has considerable faith in the far reaching influence of advertising and to substantiate this conviction he has one of his characters in a recent book make this interesting assertion: "Only an adequate advertising campaign is needed to achieve the millennium."

"Repetition is reputation" is a true term essentially applicable to advertising. The sagacity of this fact is demonstrated by American advertisers, both great and small, therefore their reason for spending hundreds of millions of dollars each year for advertising.

Advertising, with its widely appreciated power and its steadily mounting record of success, stands in need of no defence. It is an integral and valuable part of our modern life and through the potency of its gift, merits performs a great and necessary service that has no recognized substitute.

GASOLINE FROM SHALE

Pressure-cracking tests on Canadian shale oil and on bitumen from bituminous sands show that these raw materials are important reserve sources of gasoline. Gasoline yields of 18 to 20 Imperial gallons per ton of shale retorted have been obtained. Other important products from these oil and bitumen raw materials are quantities of good quality coke and uncondensed gas of high calorific value. The quality of the gasoline from the shale oil was good and that from the bitumen exceptionally good.

HILLCREST SCOTCH FOLKS CELEBRATE BURNS' ANNIVERSARY

A number of local folks attended the Burns' anniversary celebration at Hillcrest on Friday evening last and report having had a most enjoyable time.

The affair took place in the Union hall, when upwards of two hundred enjoyed the programme and the feast. The chair was occupied by Mr. W. Stevenson and the programme of the evening included the following items: songs by Mr. Tom Cuthbert, Miss Lena Fraser (of Blairmore), Miss Edith Martin, Mrs. R. Gardiner and Mr. Hill; violin selections by Mr. Duffin and Mr. W. Kyle, and recitations by Mrs. Holmes.

The repeat provided by the ladies was sumptuous in the extreme. Exceptionally tasty were the haggis served by R. Crichton who was properly and fittingly arrayed in Highland costume. During the serving of these delicacies, the bagpipes were played by Mr. A. Petrie. The toast list included the following: "The King," Mr. G. E. Cruickshank; "Immortal Memory," Mr. John Kerr of Passburg; "Scotland," Dr. G. Blair Rose; "Canada," Rev. Father Donovan; "The Ladies," Rev. Roy C. Taylor; "The Haggis," Mr. W. Hutchison. All were to the point, brimful of interest and wit and elicited of hearty applause.

Dancing followed, which included the Crecian circle, numerous reels and modern steps.

The party broke up at 3 a.m. and was voted by all the most successful and enjoyable ever held in the community.

Ether: "Where did you get that very pretty lace dress?"

Modeline: "That isn't lace. I've been to Chicago!"

At Moose Jaw a most delightful banquet was given in honor of a Holstein cow. The guest of honor excelled in record for production through a year's test.

A. D. CURRIE, Incumbent.

"I've often been kissed and fetted. By many a boy and man. But none of them ever would thrill me. With Thrills like Kelly can."

Watch for "Anybody Here Seen Kelly?"—at the Orpheum next week.

Here and There

(292) Quebec city's new grain elevator will be completed in January, it is now thought. All that remains to be done is the 2,600,000 bushel structure is to complete the three galleries and the marine tower.

A Chicago Holstein breeder has made a special offer to R. H. Thomson of Braeburn Farm, Bohara, Saskatchewan, for his world champion Holstein cow, Canary Korndyke who attended the recent banquet in Montreal of the Quebec Association for the Protection of Fish and Game.

"The problem is to convince the settler and guide in the backwoods that a surplus of game for the attraction of the hunter means money in their pockets and a source of revenue to many classes in the community."

"You don't have to sell the idea of game protection and conservation to sportsmen," said James W. Stuber, well known sporting writer who attended the recent banquet in Montreal of the Quebec Association for the Protection of Fish and Game.

The Color Scheme

Voice over the phone: "Is this the hosiery department?"

Tired salesgirl: "Yah, what is it?"

"Have you any flesh-colored stockings in stock?"

"Yah, whaddya want, pink, yellow or black?"

NEW YEAR'S MORNING

Here I lie upon the bed,
Throat so dry and throbbing head;
Blood-shot eyes and body sore—
The morning after the night before.

Can't eat nothin'—got no pep—
Lost my money, lost my rep;
Can't get up, I feel so bad.
Boy! what a wonderful time I had!

Never felt so bad before—
Even my darn tongue is sore;
When I betch I still taste green.
Gee, what a party it musta been!

ALBERTA HAS LARGE

PARK AREAS

Out of the 11,674 square miles devoted to national parks throughout the Dominion, Alberta has 8662 square miles. There are seven park areas in the province, the largest being Jasper National Park with an area of 5380 square miles. Rocky Mountain National Park is next in size with 2751 square miles and the remainder is made up as follows: Buffalo Park, 197.05 square miles; Elk Island, 51 square miles; Nemiskam, 8.05 square miles; Watrous, 54 square miles; and Waterton, 220 square miles.

THE PASS FIFTEEN YEARS AGO

(The Blaimore Enterprise)
Dec. 27, 1913—At Monday night's meeting of the town council, a resolution was passed, asking the C.P.R. to inaugurate a special train service between Burnis and Blaimore.

During the past week a new company was formed in Blaimore, to be known as the Crows' Nest Clay Products, Limited. This new company will manufacture bricks of a high grade.

The management of the local rink has received an order from N. W. Hickey, of Cowley, for sufficient ice to cover the rink there.

L. H. Putnam entertained at Christmas dinner the following: Messrs. T. Ede, J. E. Gillis, W. F. W. Hancock, C. H. Edwards, E. T. Fitzsimmons, Mr. and Mrs. W. H. Scott, of Calgary, and Misses Vida and Ethel McDonald, of Coleman.

There passed away on Friday night another old timer in the person of Horatio Nelson Wolstenholme, aged 64 years. He leaves a wife and several sons, one of whom, Wilfred, resides in Blaimore, and Fred at Hillcrest.

Miss Murdoch, of Cowley, who last year occupied a position on the teaching staff at Cowley, has been engaged by the Blaimore Board and takes up teaching duties here after the Christmas vacation.

Jan. 2, 1914—Mike Rosse has been summoned to appear before court at Macleod on Tuesday next to answer charges preferred by Mayor Lyon, of the Town of Blaimore, who contests the qualification of Mr. Rosse to hold office as a councillor. Rosse carried a heavy vote at the recent municipal elections.

At a grand rally of Conservatives to be held here on Monday next, the following are expected to be present: Robert E. Campbell, M.L.A. for Rocky Mountain; Nelson Spencer, M.L.A. for Medicine Hat; Dr. Stewart, M.L.A. for Lethbridge; Dr. Stanley, M.L.A. for High River; S. W. Archer, M.L.A. for Innisfail; George Hoadley, M.L.A. for Okotoks, and Tom Tweedie, M.L.A. for Calgary central.

Dr. A. H. Baker, who has been frantically medicine here for nearly two years, leaves this week end for Calgary.

An impromptu pugilistic encounter ensued in the post office on Monday between three Italian women. The fight lasted three rounds and much foul play was in evidence. The affair landed in a draw — the trio being drawn out into the open air by sympathetic friends.

The sad news came to Hector and Noble McDonald at Bellevue last week end that their brother has been seriously injured in a railroad wreck at Moose Jaw. They immediately left for Moose Jaw, but the brother had passed away before they reached him.

A Chinaman, who for a while was chef at the Bellevue Inn, appeared before court last week charged with inflicting bodily harm to one "Slim" Underwood by slashing him with a knife. The incident happened at the Bellevue Inn about two months ago, when the Chinaman made use of the weapon in an effort to eject Underwood from his kitchen. The Chinaman was found guilty and ordered to pay to the court \$150 and costs, part of which included Underwood's hospital bill. Being unable at the time to raise the funds, he was escorted to Lethbridge jail to serve a four months' term. Underwood was slashed across the knee, but is making satisfactory progress.

Owing to the extreme cold, the league fixture, Coleman versus Blaimore, had to be called off on Monday night. The game was to have been played on the Coleman Arcan. Coleman will play Blaimore here tonight, while Bellevue at Hillcrest tomorrow night will be the close of the schedule.

ALBERTA AMATEUR
HOCKEY ASSOCIATION

The following referees have been appointed a board of referees by the association for the season 1928-29. Each is being supplied with referee's "reports" that will be used as far as possible in all league and play-off games: Banff, Joseph Woodsworth; Blaimore, M. G. Rhynas; Bellevue, W. W. Scott; Calgary, H. Murphy, Jack Gordon and Harry Scott; Canmore, Cyril Powers and C. C. Scott; Drumheller, James Rodgers, Thomas Code and J. A. Barbour; Edmonton, Stan. Stevens; Gleichen, H. W. Manicella; Lacombe, J. McDonald; Leduc, J. Amel; High River, R. Y. McCorquodale; Medicine Hat, Dr. McNichol; Ponoka, J. Creighton; Red Deer, G. Hewson; Lethbridge, A. B. Cook; Olds, E. T. Hacking. Referees-in-chief: north, G. E. C. Howson; south, Frank McKay.

Past President King has been ap-

pointed to handle the entire play-downs for the Alberta branch. This is due to President G. E. Cruickshank being absent from the province for two weeks after the start of the play-downs; and to Secretary Lynch being away on business during the same period. Mr. King will handle all the business pertaining to play-downs, and all protests (if any) should be mailed to him.

Draws for the provincial play-offs have been arranged as follows: First round to be completed February 2nd, second round February 7th, third round February 10th, fourth round February 23rd; final, March 2nd.

First round—Edmonton, Lloydminster; Lacombe, Ponoka; Red Deer, Innisfail; Stettler, Bashaw; Olds, Carstairs; Banff, Canmore; Turner Valley, Strathmore; Gleichen, Medicine Hat; Hillcrest, Bellevue; Blaimore, Coleman. Cereal and Nanton, bye.

Senior draw: Winners of Edmonton play winners of Alberta Senior Am-

ateur Hockey League, winner to be declared March 2nd. The winner of senior section and intermediate section play for right to represent the province in Allan Cup play-offs, the winner to be declared by March 5.

Since the above was put into type, we learn that the president of the A.A.H.A. has ordered that Blaimore as winners of "A" section, must represent the Crows' Nest Pass Hockey League in the play-downs.

The appeal of Vernon Bocher was heard at Edmonton last week and his former conviction and sentence was upheld. Bocher is to hang on April 24th, for the murder of his mother, brother and two hired men at Mannville on July 8th last.

Mrs. E. J. Pozzi, with her son Joseph and daughter Anna, left by last Thursday night's train for Italy, via New York. They expect to make an extended visit in the old land.

PRODUCT OF GENERAL MOTORS OF CANADA, LIMITED

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids; and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

This Changing World

Annual stock-taking is a wise procedure on the part of every individual and nation; it is absolutely essential in the case of the man in business if he is to make a success of the enterprise in which he is engaged. This is true whether the man be the manager of a large industrial concern, or the owner of a small country store. It also applies to the man who is engaged in the business of farming because to succeed he must know where he made money and where he lost it; he must find the leakage before he can plug up the holes.

Any stock-taking should include a study of the trend of business throughout the country and the world to the extent that such study is possible. Especially in view of the close commercial relations existing between them, and the fact that they do a larger business with each other than with any other country, the people of Canada and the United States should understand not only what is taking place in their own country, but also in the neighboring country. For these reasons recent analysis of United States business in 1928 as compared with 1927 are of value to Canada.

These comparative studies reveal some startling developments and trends in business. For example, soft coal output decreased 8.1 per cent, and petroleum production 0.9 per cent, while the output of electricity increased 9.2 per cent, thus indicating the rapidly with which electric power is overtaking steam power. Railway carloadings dropped 0.6 per cent, and gross railway income by millions of dollars, but freight movement by motor trucks progressed over a larger mileage, and mail and express movements were heavier, while the output of automobiles increased 24 per cent, thus showing the modern trend to more rapid transportation of commodities.

Department store sales increased 1.1 per cent, mail order sales jumped 14.9 per cent, and chain store sales 17.1 per cent. On the other hand, wholesale trade fell off 1.5 per cent, indicating steady progression in more direct selling from producer to ultimate consumer. Possibly one of the effects of this development is found in the increase of 1.2 per cent, in the number of business failures, notwithstanding the year was one of great production, large constructive development and prosperity.

The modern trend in the larger use of electricity, more and still more efficient machinery, and more direct and rapid transportation is emphasized by the fact that, in a year of amazing growth in production and construction, employment decreased 3.3 per cent. In contrast with this is the fact that union wage rates were 0.4 per cent higher, indicating that, while there was decreased employment, those in employment were paid slightly higher wages.

The buying power of United States farmers rose 6 per cent, revealing an improvement in the agricultural situation. Business profits rose 11 per cent, savings bank deposits 8.9 per cent, life insurance sales 5 per cent.

The above figures would seem to indicate certain factors and lessons deserving of earnest consideration by all business men. The fact that business profits rose 11 per cent, but business failures increased indicates that the business man who keeps himself informed of, and adjusts his operations in conformity with, changing conditions succeeds while the uninformed and ultra-conservative loses out. To the artisan, clerk and working man the figures seem to say that in this machinery age the man with knowledge and initiative, in a word, the efficient man, is in demand and at even higher wages, while the inefficient finds increasing difficulty in securing work.

The same economic forces are at work in Canada as in the United States, and the same tendencies are to be noted, the only difference being that this country is not so highly industrialized and has much greater natural resources still in an undeveloped state calling for manual labor. In the commercial world, especially in the retail merchant class, the problem of the small under house, the main store, the consolidation of merchandising in the hands of great concerns, and the allied problems of transportation and distribution, are becoming quite as acute, and if he is not to go under the small dealer must meet these changing conditions. He cannot do it alone, single-handed, but his chances of success are good through co-operation.

In the past few years, and particularly in 1928, a great change has taken place over western Canada farms through the introduction of the combine, the motor truck, and the building of good roads. Through these means production will be increased on the one hand, while less human labor will be required—that is, there is the same tendency in agriculture as in manufacturing industry. This means that, large as western farms are on the average compared with other countries, they will be, as operating units, become larger, with all the changes involved. Here, too, the further application of co-operative principles and methods will make for success.

The world will not stand still; it is moving forward at an ever faster pace and he who would stay in the procession, be he merchant, mechanic, farmer or clerk, must be capable and equipped to move with it. The basic foundation of such equipment is as wide a knowledge as possible of the current trend of events, and the accepted methods of coping with the changes and developments so rapidly taking place.

"Blue Blood" Defined
"Blue blood," designating an aristocrat, had its origin in the popular belief that the veins of the high-born carried blood of a purer, deeper blue than those of a plebeian people. This misapprehension probably arose from the fact that sheltered, leisure-loving nobles had a fairer skin, through which the blue of the veins was more clearly seen.

A Health Saving Reminder

Don't Wait

until you get the

Fertilizers From Trail, B. C.
Further experiments with superphosphate from the smelter at Trail, B. C., will be conducted in 1929 by the Alberta Department of Agriculture in conjunction with the Dominion experimental farms and C.P.R. experimental farms. An abundant quantity of this fertilizer will be available to meet demands.

Long Term Payment
Mrs. Higgins had just paid the last installment on a perambulator.

Shop Assistant: "Thank you, madam. How is the baby getting on, now?"

Mrs. Higgins: "Oh, 'e's all right. 'E's gettin' married next week?"

Germany's New Street Car
Capable of carrying 117 passengers and of attaining a speed of 50 miles an hour, a new single-deck street car is being tested in Dresden, Germany. It is so long that the conductor has to announce the stopping places by megaphone.

What Farming Is

Not Merely A Business But Building A Home

When a buyer goes hunting a farm his first question often is, "What is the location of the property in relation to schools, churches, highways, markets and shipping points?" Farming is more than a business. Farming is living, building a home, rearing children and educating them.

Here is where community life comes into the picture. When people take an interest in neighborhood affairs; when they help to improve their schools, their churches, their roads, they are improving their own surroundings and adding to the value of their farms.

He is a very calloused buyer indeed, who would purchase a farm in a district where the community life is dull, and where schools and churches, physically and spiritually, are in a state of bad repair.

NEW HEALTH FOR TIRED-OUT WOMEN

Found in the Rich, Red Blood Dr. Williams' Pink Pills

Actually Make.

Anemia comes on gradually, beginning with languor, indigestion to mental or bodily exertion, irritability and a feeling of fatigue. Later comes the palpitating of the heart, headaches, frequent headaches and often disturbed digestion and an inability to obtain rest at night. Cases of this kind, if they are not become more serious, but if taken in time there is no need to worry. Dr. Williams' Pink Pills, which are free from any harmful or habit-forming drug, are just the tonic needed to remedy this wretched state of health. These pills actually make the rich, red blood that stimulates and strengthens every organ and nerve in the body. This strength and activity return, the appetite improves and mental sleep is banished. What Dr. Williams' Pink Pills can and will do is shown by the case of Mrs. D. B. Fanning, Seal Harbor, N.S., who says: "I was in a badly run-down condition. I was pale, my appetite was very poor, and the least exertion would leave me completely tired. In fact I was hardly able to do much work about the house. I decided to try Dr. Williams' Pink Pills and after taking a few boxes can truly say I had gained greatly in health and strength and was able to go about my work with no sign of the former weakness. I cheerfully recommend them to all others who may be in a run-down condition."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Experimental Farm System

Canada Has Largest System Of Its Kind In The World

The Canadian Government Experimental Farm system now embraces 27 farms, seven sub-stations, one horse-breeding station, one fox ranch, 10 plant pathological laboratories and 201 illustration stations at different points in the nine provinces of the Dominion. The system is the largest of its kind in the world.

Mothers Value This Oil—Mothers who know how suddenly croup may seize their children and how necessary prompt action is in applying relief always keep at hand a supply of Dr. Thomas' Electric Oil, because experience has taught them that this is an excellent preparation for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

"You naughty child! Such good soup! I wonder how many children would be glad to get half that."

"I should, for one, mother."

Use Minard's Liniment for the Flu.

A woman graduate of Glasgow University has become Scotland's first woman minister.

CUTICURA HEALS LARGE PIMPLES

Caused Itching Burning, Also Disfigurement.

"My complexion was completely marred by pimples which varied in size. Some were large, hard and scaly, while others were just red and festering. They caused an itching, burning sensation, also disfigurement."

"After using scores of remedies for over two years, with but little result, I sent for a free sample of Cuticura Soap and Ointment. I was so pleased with the results that I purchased more, and after using two cakes of Cuticura Soap and one large box of Cuticura Ointment I was completely healed." (Signed) W. E. Blackburn, 20 Bellevue Ave., Toronto, Ont.

Use Cuticura to clear your skin.

Sample Each Free by Mail. Address: Cuticura, Dept. 5, P.O. Box 102, Lowell, Mass. U.S.A. Cuticura Soap, 25¢. Cuticura Ointment, 25¢.

The Architect's Secret

Strange Memorial Has Been Found For Three Hundred Years

In an ancient city of India stands what is often called the most splendidly poetic building of the world. It is the far-famed Taj Mahal, which was built by the Emperor Shah Jehan as a final resting place for his favorite wife, Mumtaz Mahal. One of the princes of India some years ago told the following story regarding it: When the mausoleum was being built the architect was authorized to embody in the structure some memorial to himself. He kept his own counsel and when the edifice was completed it was found that his memorial consisted in this—that whenever it rains from high up in one of the domes three drops of water fall in succession to the floor below. No matter how hard it rains or for how long, three drops and only three descend to bear testimony of the architect's wisdom. For nearly three hundred years men have puzzled in vain to learn by what artifice this result was accomplished, and the secret still lies hidden within the marble masonry of that dome.

Recipes For This Week

(By Betty Barclay)

BAKED ORANGE CUSTARD

- 5 egg yolks
- 1 egg white
- 1/4 cup white
- 1/4 cup sugar
- 5 grains salt
- Grated rind 1 orange
- 1/4 cup orange juice
- 1/4 cups milk

Beat yolks and white of eggs until light; add sugar, salt, grated orange rind and orange juice. Scald milk in double boiler; pour gradually, while stirring constantly, over egg mixture; pour into buttered custard cups, placed in a pan of hot water, and bake in a moderate oven until custard becomes firm. Cool, and serve with whipped cream on top, or turn out and surround with sections of orange and orange syrup.

THOUSAND LIND DRESSING

- 1 cup mayonnaise
- 2 hard-cooked eggs
- 2 tablespoons tomato catsup
- 2 tablespoons pimento stuffed olives
- 2 tablespoons chili sauce
- 2 tablespoons pickled onions.

To the mayonnaise add all of the other ingredients finely chopped.

Toes Made Comfortable Sore Corns Removed

Quick, safe relief is almost instantaneous if you apply PUTNAM'S "CORN EXTRACTOR." Shoes won't pinch or hurt. One single drop of Putnam's stops the pain. A few applications make the corn dry up and drop off. Putnam's Corn Extractor gives satisfaction. Thousands use it every day. Get a bottle from your druggist. Refuse a substitute for "Putnam's," the one sure relief for sore corns.

Alberta Wool

Over Fifty-seven Thousand Dollars Realized By Sheep Association.

Cheques to the value of \$57,898.57 have been sent out to members of the Alberta Sheep Breeders' association for wool shipped out and ranging in price from 24 to 38 cents a pound. The wool was shipped to the Canadian Co-operative Wool Growers, Toronto, where it was graded under government inspection.

Cattle in Fine Condition

Owing to the light snowfall around High River, Alberta, this year, the cattle and horses on the Prince of Wales ranch and on other ranches in the vicinity are in excellent winter condition, and it has not yet been necessary to do any feeding, according to W. L. Carlyle, manager of the E. F. Ranch.

Complete in Itself, Mother Graves' Worm Extirminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

Rover's Punishment
Nurse (suspiciously): "What have you been doing, Miss Ellen?"
Ellen: "Rover's eaten my dolly's slippers, so I've just been punishing him."

"How?"
"I've been to his kennel and drank his milk."

Ranching Days Recalled
The memory of ranching days in Alberta is preserved by the place names, Staveland, De Winton, Cochrane, and Skins.

Minard's Liniment for the Grippe and Flu.

ASPIRIN

FOR HEADACHE

Headaches may be swiftly and safely relieved by an Aspirin. A most efficient remedy, and there's no after effect; its use avoids much needless suffering. Try it next time; see how soon its soothing influence is felt. Just as helpful when you have a cold; neuralgia, neuritis, rheumatism, lumbago. Just be certain you get real Aspirin—the genuine has Bayer on the box, and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be marked with their "Bayer Cross" trademark.

Farm Machinery Purchases

Farmers of Southern Alberta Made Heavy Investments Last Year

According to an estimate appearing in "The Lethbridge Herald," some \$7,200,000 was spent in Southern Alberta during 1928 for new autos, trucks, tractors, combines and other much farm machinery. The classification is as follows: Automobiles, \$2,500,000; Combines, \$1,000,000; tractors, \$1,250,000; and other machinery, \$2,500,000. At harvest time a survey showed there were 551 combines and 2,250 trucks in operation on the Lethbridge railway division.

It Testifies for Itself.—Dr. Thomas' Electric Oil needs no commendation of its powers other than itself. Whoever tries it for coughs or colds, for cuts or bruises, for sprains or burns, for pains in the limbs or body, well know that the medicine proves itself and needs no guarantee. This shows why this Oil is in general use.

Galathea had his good points, but only our higher civilization could produce a drug clerk who says, "Thank you" after sending a postage stamp.

"Dad, what is inducement?"
"Inducement, my boy, is what you think you have till you try to use it."

He—"Do you enjoy having company?"

She—"Yes, providing they come after dinner."

Contracting Tuberculosis

Occupations Where Air Is Charged With Dust Show High Death Rate

A survey made by the Metropolitan Life Insurance company has revealed some interesting information regarding the possibilities of death by tuberculosis. It is recorded that workers employed in trades and occupations where the air is charged with dust show a much higher death rate from this disease than do occupied males as a group. Foremost among these occupations are miners, with the exception of coal miners, pottery workers, stone cutters and others.

Had No Excuses

Theater attendant: "To man who is going out during the performance: 'Are you coming back, sir?'"

"No."

"May I remind you that your ticket is not transferable and you cannot give it to another person."

"I don't wish to—I have no enemies."

Paring a corn is both risky and ineffective. It is much better to use Holloway's Corn Remover and eradicate them entirely.

"All men are born free and equal." "Yes, but some get married."

Minard's Liniment for Coughs and Colds.

Most men who go to court don't go to get justice, but to get even.

Appleford Paper Products

Western Representatives:

HUNTER-MARTIN & CO., REGINA, SASK.

STEP TOWARD STABILITY IN EASTERN EUROPE

Paris.—Poland's acceptance of the Soviet proposal for a protocol putting the Kellogg pact into effect immediately in eastern Europe, will yield beneficial results, it is believed in connection with the general situation in that part of the world.

The Russians have indicated that they are willing to admit not only Poland but also Rumania and the Baltic states to the provisions of this protocol.

Because of the Bessarabian question, no diplomatic relations have ever existed between the Soviet and Rumania. It is surmised that the new protocol negotiations will lead to such relations.

The protocol will also go far in quieting Soviet fears of a great aggressive plot against Russia by the capitalist states led by Great Britain.

It is significant that Poland has waited until the United States ratified the Kellogg pact before accepting the Soviet proposal.

Sacrifices Life To Save Companion

Montreal Woman Fights on Firemen

Montreal, Que.—Trapped in a top floor apartment, which she occupied with Miss Harriet Barr, a close friend, Mrs. N. Raibe, widow of Col. W. N. Raibe of London, England, sacrificed her life to save that of her companion in a fire which destroyed the Eltona apartment building, a four-story building here. When the firemen forced their way into the Raibe apartment from a ladder, while the fire was sweeping the lower floors, they found Mrs. Raibe near the window and started to carry her to safety, but she insisted that they first save Miss Barr, who was already overcome by smoke. The firemen carried Miss Barr down the ladder and returned to the top floor to find it a seething mass of smoke and flames. Their efforts to rescue Mrs. Raibe were in vain and it was not until four hours later that they were able to carry her way into the building and carry out her charred body.

France Seeks Payment For German Sugar

Over Three Million Dollars Worth Not Paid For Is Claim

Paris.—A search for more than \$2,000,000, owing the French government, was being made by police after it was revealed that reparations payments of sugar had been turned over to private concerns and not paid for.

Leon Poller, former professor of political economy at the University of Lille, has been arrested as a ringleader in the plot against the government. He is accompanying police on their visits to various concerns believed involved in the deals.

Forty thousand tons of sugar were delivered by Germany in lieu of cash as reparations payments. The sugar was turned over to the Sugar Farming company and the Franco-Moroccan Navigation company to sell, but the government has not received payment for it.

King's Condition Improves

London.—Continued improvement in the health of the King today led the court officials to begin planning the regular levees and other functions of the season. The first levee at which the Prince of Wales will preside, will be held at St. James palace on Feb. 26. The King's physicians have made it known that he must spend no more winters in England, but that he must seek a warmer climate for several months each year.

Booster Founds Guilty

Edinburgh.—Verdict in the case of the Edinburgh bomber will hang on April 24, 1929. After a deliberation of five hours and eight minutes, the jury found the accused youth guilty of the murder of his mother, brother and their two hired men on July 9, 1928, at Menzies, Mr. Justice Walsh immediately sentenced the slayer to be hanged.

Will Advocate Railway Link

Winnipeg.—J. T. Thomson, member of parliament for South-Central Winnipeg, will bring up in the House of Commons at the forthcoming session the subject of more direct railway communication for Winnipeg with Hudson Bay.

W. N. U. 1770

Will Urge Negotiation Of Trade Agreement

Chinese Nationalist League Would Develop Business With Canada

Vancouver.—Development of trade between China and Canada through the negotiation of a treaty between their government and that of Canada is a major recommendation to be voiced at the annual convention of Kuomintang, Chinese national government, at Nanking, by the seven delegates from Canada. Seventy-five representatives of all branches of the Chinese National League in Canada are now holding their annual convales at Canadian headquarters, Gore avenue and Pender street, and will elect their representatives before the sessions end Jan. 31.

An increase in the number of consulates throughout the Dominion will also be sought by the delegates from Canada. Consulates are at present maintained only at Ottawa and Vancouver.

There are 75 branches of the league in Canada, with three divisions, governing the east, middle-west and west. There is a Canadian membership of more than 10,000.

Prizes For Research

Two Will Be Given for Best Work In Cancer Investigation

London.—The grand council of the British Empire cancer campaign announced approval of an offer of two prizes of \$2,500 each, in 1931 and 1933, for the best original piece of work in the investigation of cancer carried out in the British Empire. They will be known as the Garton prizes.

The report of the Medical Research Council, summarizing the work of various research centers in 1927, claims malignant growth in the early stages of cancer can be removed by the radium treatment as efficiently as by any surgical means.

New Railway Station

C. N. R. Station At The Pas Is Officially Opened

The Pas.—Another chapter in the development of northern Manitoba was written today when the Canadian National Railway's new \$750,000 station was officially opened here. A ceremony was held at the new station, which is situated in the heart of the town. Maj. J. G. MacLachlan, district engineer of the C. N. R., turned the station key over to V. I. Smart, general superintendent of transportation, who opened the door of the station to the public.

Believes Soviet Rule Over

Montreal.—The Soviet experiment in Russia has failed tragically and its endurance was now but a question of the patience of the Russian people, according to his imperial highness, the Grand Duke Alexander Mikhailovich, brother-in-law of the late czar, cousin by marriage to King George, who has arrived here. The grand duke was certain that his countrymen would not suffer the yoke of the communists very much longer.

New Senator Appointed

Ottawa.—Hance J. Logan, former Liberal member for Cumberland, N. B., in the House of Commons, has been appointed to the Senate, filling the vacancy in that body caused by the death of Senator W. B. Ross. Announcement of the appointment was made at the prime minister's office.

Will Take King To Sussex

London.—Preparations are going forward for the removal of King George to Bognor in Sussex as soon as his doctors decide that the time is opportune. The King will leave the 65 miles to the coast resort in a large car fitted so that he can lie as comfortably as in his bed at Buckingham palace.

Canada's Record Wheat Yield

Ottawa.—Canada's yield of wheat for the year 1928 amounted to 534,571,700 bushels. This is the highest on record and the first time that Canada has harvested a crop of over half a billion bushels. This announcement was made in the crop report just issued by the Dominion bureau of statistics.

Is Acting Postmaster

Ottawa.—William H. Penobck, for several years assistant postmaster at Ottawa, has been named acting postmaster. The vacancy was created by the death recently of Andrew G. Acres.

Class B Fairs

New Dates Are Set At Meeting Held In Winnipeg

Winnipeg.—The establishment of an eastern and a western circuit of B class fairs, and the setting of dates for fairs in each circuit, was the principal result of a session of the Western Canadian Fairs association held at the Fort Garry hotel.

The Western Canadian Association of Exhibitions, which comprises the class A fairs conducted their convention in the afternoon.

Archie Wilson of Saskatoon, heads the Western Canada Association of Exhibitions for the coming year, being elected president to succeed H. W. Abbott of Edmonton at the closing session. H. G. Smith, Regina, was re-elected vice president of the organization and S. W. Jones, Saskatoon, will continue in office as secretary-treasurer.

Johnny J. Jones was awarded the contract for midway shows at class A fairs.

Because the circuit of the Western Canada Fairs Association had become so unwieldy by reason of the large number of fairs, it was divided into two circuits, and the dates for fairs set as follows:

Eastern circuit—Carman, June 28 to July 1; Estevan, July 3 to 6; Portage la Prairie, July 8 to 10; Dauphin, July 11 to 13; Prince Albert, July 15 to 17; Melfort, July 18 to 20; Yorkton, July 22 to 24.

Western circuit—Weyburn, July 8 to 10; Assiniboia, July 11 to 13; Lehigh, July 15 to 17; Red Deer, July 22 to 24; Camrose, July 25 to 27; Vegreville, July 29 to 31; Vermilion, Aug. 1 to 3; Lloydminster, Aug. 5 to 7; North Battleford, Aug. 8 to 10.

EMBARGO BRINGS PROTEST FROM RAILWAY HEADS

Montreal.—The partial embargo placed against central European colonists by the Dominion department of immigration and colonization drew from the Canadian Pacific and Canadian National railways today a formal protest.

The decision, it was claimed in a statement issued by the presidents of the companies, will not only work distinct hardship on both transportation systems but will destroy the faith the governments, whose people are affected, have in Canada.

The companies deny they are interested in moving colonists from non-preferred countries in Europe rather than those from Great Britain or other northern European or preferred countries.

The attitude of the transportation companies was outlined in a statement issued to The Canadian Press by the railway presidents, E. W. Beatty and Sir Henry Thornton.

BACK FROM THE BARRENS

Although he had not been out of the Barren lands for fifteen years, George Yandle, trapper, maintained a fine sense of civilization. The first thing he did when he got to The Pas—he did not even wait until he reached Winnipeg—was buy himself a pair of spats with zippers. Yandle acted as interpreter when Count Ilya Tolstoy entertained the Eskimos in the far north. The photograph, which was taken outside the Canadian National Railway station in Winnipeg, just after the trio's arrival, shows Yandle; Tolstoy, in the center; and W. J. Casel, photographer. Count Tolstoy, who is the grandson of the great Russian writer and philanthropist, headed an expedition into the Barrens to study the migration habits of the caribou, and some unusual photographs were obtained of the immense herds. After spending a day in Winnipeg, the party, together with five Eskimo dogs, worth \$65 apiece, went to Timiskaming, the Ontario forest reserve, for further study of the animals, and thence to New York.

RECEIVES IMPORTANT POST

Dr. Charles R. Best, collaborator with Dr. F. G. Banting in the discovery of insulin, has been appointed to the chair of physiology of the University of Toronto. He succeeds Prof. J. L. R. MacLeod, who left Toronto to return to the University of Aberdeen.

Exhibition May

Be Re-Established

Winnipeg Ratepayers Will Vote On Question in March

Winnipeg.—An exhibition which the promoters hope will take a prominent place among the exhibitions of the Dominion is being planned at Winnipeg, according to Wesley McCurdy, director, speaking to western exhibition authorities meeting here yesterday.

Winnipeg ratepayers will vote March 15 upon the question of whether or not they wish to authorize expenditure of \$850,000 for the re-establishment of the city's exhibition.

Decline in Dairy Production

Winnipeg.—High spring feed prices and tempting offers by American buyers for dairy cows caused a falling off in total dairy production for 1928 in Manitoba, according to Alex. McKay, president of the butter manufacturers' section of the Manitoba Dairy association. The year, on the whole, was successful, the president intimated in his address.

To Tour Europe

Ottawa.—Arrangements have been concluded here for the European tour of a large party of Canadian club members. The group which it is expected will draw members from every part of the Dominion, is to sail from Montreal aboard the liner Laurentic June 8.

Wrote For "Punch"

London.—Randolph Chambers Ledman is dead at Bourne End after a long illness. He was famous as an orator and rowing coach and also for the light, witty verses which he contributed to "Punch."

Needs Britain's Protection

Iraq Is Not Sufficiently Prepared to Defend Itself

London.—Differences between the British and Iraq governments over the ability or otherwise of Iraq to defend itself have resulted in the resignation of the Iraq cabinet under Premier Aska Jafar Pasha of Asker.

The British authorities hold the view that Iraq, placed under Britain's protection after the war, is not yet ready to assume full responsibility for its defence.

A treaty between the British and Iraq governments in 1923 provides the responsibilities of Great Britain as a mandatory power shall be terminated when Iraq is admitted to the League of Nations.

Iraq has a population of nearly 3,000,000, practically all Mohammedans. Its chief city is Baghdad, and the territory is east of Arabia, comprising 150,000 square miles.

The real difficulty, it is pointed out in London is that even the existing agreements between Great Britain and Iraq are not fulfilled particularly with regard to military and financial matters, including railways and forts.

South African Tourists

Greeted By Snowstorm

Students Wanted Thrill and Got It In Toronto

Toronto.—In the midst of a blinding snowstorm 37 students of South African universities arrived here in the course of their tour of United States and Canada.

"Just what we wanted," one of them exclaimed heartily, though citizens of Toronto were finding the storm troublesome.

"We were counting on Canada for the thrill of real cold weather, lots of snow and the novelty of ice hockey," T. Thorpe, Capetown university spokesman for the visitors said.

The students were the guests of Toronto university and left for Montreal for a visit to McGill university. Before completion of the tour the students will have been away from home for three months and will have travelled 25,000 miles.

Crosses Atlantic In Steamer's Lifeboat

Stowaway From England Had Feet

Free-Hitler During Voyage

New York.—Matthew Haderley, youthful chase car driver of Cheshire county, England, completed a stowaway crossing of the Atlantic in a lifeboat, an uncomfortable but not a dangerous journey, for the lifeboat all the time was hanging in its davits on the liner Laconia. For 10 days the stowaway stuck it out through storm and cold, living on the emergency rations in his hiding place. He kept his hands warm against his body, but his feet were frost-bitten and just before the ship reached quarantine the pain drove him forth.

He collapsed while telling his story but was revived about put to bed in the ship's hospital. He will be sent back to his cheese cart.

URGES BETTER FEELING BETWEEN TWO NATIONS

New York.—J. Ramsay MacDonald, former premier of Great Britain, in an article under his name in the current issue of The Nation, Liberal weekly, makes a plea for the understanding public men of the two nations "to meet and drag from the obscenity corners of suspicion the things that make difficulties between us."

The relations between the United States and Great Britain grow increasingly unhappy," he says. "A spirit is growing in the two countries which is estranging them and is encouraging a kind of squabbling criticism which destroys mutual understanding and forbearance."

Have both of us failed to observe how easy it is to slip into war? Nothing, how rarely popular imagination is to be set on fire by anyone—even an almost anonymous newspaper proprietor—who cares to light a match?" he asks, then continues:

"This is no case for private and unofficial action and conferences. The governments must act. Both countries ought to appoint five or six outstanding men to discuss our difficulties, for further study of the world we live in and to clean our minds of them."

CANADA'S CLAIM APPROVED BY RADIO MEETING

Ottawa.—Canada's claim to 40 per cent. of the intermediate waves has, it is understood, been successfully maintained at the international radio conference meeting here.

While the proceedings continued to be closely guarded, the scheme of division is believed to be approximately 40 per cent. to Canada and 60 per cent. to the United States. Newfoundland, Cuba and Mexico will share certain of the channels.

From the fact that most of the waves have a range of only 1,000 to 1,800 miles, Newfoundland can share a number of waves with stations in the southern United States and no conflict will occur. In the same fashion Cuba and Mexico will occupy certain channels in common with Canadian transmitters.

Although the percentages eventually chosen were probably always in view, it is known that the United States was seeking a much larger share.

There are 639 channels in the band with approximately 250 channels available for distribution after allowing for amateurs and dot-and-dash stations.

Ratifies Kellogg Treaty

Action of Lithuania May Affect Dispute Between Russia and Poland

Kovno, Lithuania.—The Lithuanian government ratified the anti-war Kellogg pact.

Ratification of the Kellogg pact by Lithuania has significance in its bearing upon negotiations between Russia and Poland for a special protocol applying the pact in a localized sense to the states that touch the western frontier of Russia. Poland and Lithuania have been at odds over frontier questions and over the ownership of Vilna, a city which Lithuania claims as its legitimate capital but which is now held by Poland.

Plan Air Endurance Test

Flight to Prove Claims Made for New

British Plane

London.—The Mail says that a non-stop flight from Capetown to England is planned to test the claim made for a new British aeroplane that it is capable of flying further without refueling than any other in the world.

The plane, which has tanks for three and one-half tons of gasoline in its hollow 38-foot wing, is now being put through trail flights. Two pilots will fly it to Capetown by easy stages and attempt the return flight without a stop.

Inspect's Seagrave's Car

Prince of Wales Learns Things

About Speed Riding

London.—The Prince of Wales, after arriving alone in his automobile, made one of his typical impromptu visits to a London motor house to inspect the car "Golden Arrow" with which Maj. H. O. Seagrave intends to attack world's speed records this year.

The major happened to be present and he showed his vehicle to the prince, answering many questions about the sensations of speed riding.

Treating Drug Addicts

Geneva.—Naotake Sato, the Japanese League of Nations representative, has informed the international opium committee that Japan was successfully applying medical treatment to Korean morphine addicts.

Out of 684 cases, 660 had been sent to hospitals and cured.

Director of Cattle Association

Bradford, Ont.—R. B. Felt, for 25 years editor of the Farm Journal, has been appointed director of extension of the Holstein Friesian association of Canada. His headquarters will be in Bradford.

Wireless For Planes

Toronto.—Provincial air force planes will be equipped this year with wireless, so they may send reports to headquarters from any distance up to 400 miles it has been announced.

Report Severed Relations

Berlin.—An entirely unconfirmed report circulated in Berlin said Japan had severed diplomatic relations with Russia. The source of the report was not known.

The Plant and Business of the Blairmore Vulcanizing and Battery Station TO BE SOLD

The undersigned having taken an option on a certain merchandising business in South Alberta, expiring April 1st next, we are now offering our above Plant and Business for sale upon reasonable terms to a reliable purchaser, giving possession any time up to April 1st.

We have the nicest paying business in The Pass country, investments considered. Our books are open to any bona fide intending buyers for inspection. The past 1928 year was the best we have had for profits in the past eight years and this proposition is worth while investigating by anyone wanting a business of this kind.

For further information, apply to
W. M. BUSH, Proprietor, Blairmore

Mervyn Humphrey, a grocer in the Manchester addition of Calgary, was shot through the cheeks by a masked bandit as he was about to close his store on Thursday night last. Humphrey will likely recover.

A number of accidents have occurred along the lines of the C.P.R. during the cold spell, resulting in the loss of at least eight lives, mostly train hands.

The Glynmill Inn, one of the finest hotels in Newfoundland, was almost totally destroyed by fire the early part of the week. The hotel was located at Cornerbrook and was owned by the Newfoundland Development Company.

Remember the big Chevrolet demonstration to be held at the Crown's Nest Pass Motors' garage today at 2 and 8.15 p.m.

CALENDARS !

The Enterprise has the territory agency for one of the largest Calendar manufacturing firms in Canada.

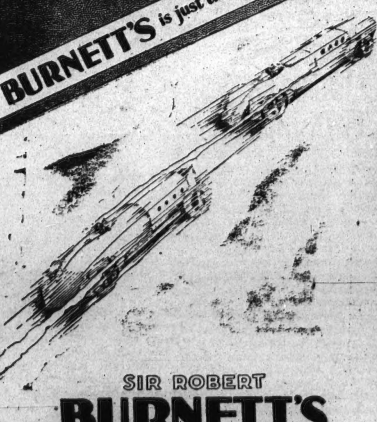

Prices are guaranteed lower than quoted by any other house and the goods are of superior quality

If you require Calendars in quantities from 25 to 500, see our Samples, or call us and we will be only too pleased to visit you.

Local and General Items

We understand that the Red Trail Motors have secured the agency for "Whippets."

The Drumheller hospital board is planning on spending \$48,000 on a new annex.

The Moose Saturday night dances are ever becoming more popular. Don't miss the next one.

A sign in a music store reads: "Kiss the Girl You Love" and many others just as good."

Mrs. G. Bond returned on Friday last from a couple of weeks' visit with friends in Calgary.

Mrs. R. Laslett has joined her husband at Coleman, where they will make their home in future.

THE MOOSE DANCE from 9 to 12 on Saturday nights. Good music and a good floor ensure a good time.

Forty-eight to sixty below zero was experienced here the early part of the week. As a result of the low temperature and the absence of snow, many water connections have become frozen.

WORK CONTINUES ON HIGHWAYS

The travelling of that section of the Red Trail between Macleod and Lethbridge has been completed by the contractors, McDonald & Foster, and their gravel-crushing outfit has been moved to within a few miles of Pincher. From here work is being started on the graveling of the section of road between that point and Macleod. On the completion of this work, Lethbridge and Macleod will have all-weather roads through to Crown's Nest on the west and Edmonton on the north.

WINTER

When the howling blasts of winter send cold shivers up your spine. And the ground is covered rather deep with snow. Why sit at home and grumble, when it means work at the mine? Too often now we hear those whistles blow.

It may not be so pleasant, while the winter is so severe, as the spring and summer time we love so well. 'Tis the miners wish at present for this weather to appear—

When it means for them a longer working spell. It means a larger pay check, food and clothing for them all. A chance to pay their back debts at the store.

They have to buy on credit, their pays have been so small. They need lots of work to clear themselves, once more.

So when its cold and freezing, take that saying now to heart, it's an ill wind that blows no one any good. This is the miner's prayer, when he hopes to play his part, To earn enough to live as human beings should.

You with your steady income, perhaps could use some more; But so much comes in regular each pay day. So that with careful buying, and cash discounts at the store, Have a chance to put a little bit away.

For the miners, things are different, too uncertain is their work; For months their bills are double what they earn;

So a little touch of winter for their sakes we should not shrink. But be thankful that they, too, can have their turn.

Hughie Manson up against it

George M. Hatch, former mayor of Lethbridge, died in this city on Tuesday, aged 77.

Robert Smallwood, of Corbin, was a business visitor to Blairmore the early part of the week.

Friday and Saturday at the Orpheum, Len Chaney in his latest and best photoplay, "West of Zanzibar." Fate had made him a crawling thing—a crippled monster, so he took his revenge on life. You must see this great picture to get a thrill.

The W.O.M.L. will hold a Social Evening in the Moose Hall, Blairmore, on Thursday, February 14th, at 8 p.m. Cards and dancing. Altermatt music. Admission 25c. Come and have a good time.

LEAGUE HOCKEY Arena Tonight

**COLEMAN
versus
BLAIRMORE**

Even a bill announcing a hard times dance for Hillcrest, that by the way was printed in Lethbridge, looked the part. We have no idea of how cheap the job was, but it should have been cheaper.

The fire department was called out last night, fire having been discovered in a pile of slabs near the iron works.

A second vote taken by the local union on the doctor question resulted in 75 for Dr. Stewart and 69 for Dr. Olivier. The vote was taken on Sunday afternoon last at a largely attended meeting.

Don't forget next Monday, "The House of Scandal," with an all star cast. Big dramatic underworld story, with tender love and comedy touches. Also "Thrilling Moments," the greatest ring history of all times, with the best prize fighters of today.

**Coleman's Goalie Warning
up for tonight's game**

**ENGAGEMENT
RINGS**

A Diamond, a Sapphire, or Emerald, in a mounting of platinum or white gold of carefully considered design—the ring perfect for her.
